

Demonstration of the AMA biblatex style

Here is a citation to a book¹. An article example². A tech report³. An inproceedings entry⁴. You can also force parenthetical citations (3) but this is not standard AMA.

Citation with first author name

Lamport⁵ is an other example of a book. Šmigoc et al.⁶ is an example with a first author having a non Latin first letter. Byoun et al.⁷ is an example with a long author list.

Multiple citations

Sometimes you want to cite more than one work at once^{1-3,7,8}.
